

Going Long: Capacity Markets in Action

Wendell F. Holland
Moderator
Chairman
Pennsylvania PUC

Panelists

- David LaPlante, V.P., ISO New England
- Mary Lynch, V.P., Constellation Energy
- Andy Ott, V.P., PJM Interconnection, LLC
- Erik Paulson, Director, Customized Energy Solutions

Issues

1. Will paying existing generators more overcome the siting, permitting, and investment obstacles created by future legislation?
2. When do we decide these new markets have failed or succeeded and how do we measure the result?

Issues

- Is the long term capacity market auction working?
- How has the auction impacted alternate supply alternatives
- What is New England's forward capacity market and how well is it working?
